SCHOOL OF LIBERAL ARTS & SCIENCES

Vision

- To be a globally recognized, technology-driven School of Liberal Arts and Sciences that nurtures critical thinkers, creative problem-solvers, and compassionate leaders through interdisciplinary learning, ethical inquiry, and innovative education

Mission

- To pursue academic excellence through innovative pedagogy, interdisciplinary research, and experiential learning that integrates the Arts, Humanities, and Sciences and equip students with the skills necessary for diverse careers and lifelong learning
- To prepare students to navigate an evolving world with adaptability and confidence by cultivating intellectual curiosity and embracing emerging technologies
- Building a diverse academic community through national and international collaborations, fostering global perspectives while addressing local and regional challenges
- Encouraging personal and professional growth by instilling empathy and civic responsibility whilst preparing students to become socially conscious and responsible human beings

SCHOOL OF DESIGN

Vision

- To be a leading design school that nurtures original thinkers, shaping transformative change for a sustainable and equitable world.

Mission

- Develop a student-centric curriculum that upholds relevance, readiness, and resilience, and research in an evolving design context
- Leverage ubiquitous and emerging technologies to create inclusivity, curiosity, creativity in design teaching and learning in intersecting disciplines as applied to design contexts
- Build global perspectives through academic partnerships and enrich learning and teaching through creative exchanges

- Foster theoretically informed, empathetic design practitioners who prioritize sustainability, social justice, and planetary well-being, guided by innovation and entrepreneurial mindset.

SCHOOL OF ECONOMICS AND PUBLIC POLICY

Vision

- To shape a better tomorrow by developing economists and policy leaders through world-class training in advanced analytical techniques and transformative multi-disciplinary research to address local and global socio-economic challenges.

Mission

- To nurture future-ready economists and public policy professionals through a blend of rigorous academic training in advanced analytical tools and knowledge with a multidisciplinary lens to identify and solve socio-economic and business issues.
- To inculcate an inquisitive and critical research mindset among students empowering them to engage with community and policy makers contributing to sustainable, equitable development.
- To adapt innovative and inclusive pedagogies in economics teaching fostering a dynamic learning environment that equips students with critical thinking, analytical skills and practical knowledge necessary to thrive in an ever-evolving global economy.
- To foster collaborations with industry leaders and policymakers enabling relevant experiential learning among students that bridges theory and real-world application and enhances their employability.

SCHOOL OF BUSINESS

Vision

- To cultivate future-ready socially responsible business leaders through a world-class, technology-infused education, empowering them to drive positive change in the global economy.

RV Vidyaniketan, 8th Mile, Mysuru Road, Bengaluru, 560059, India
Ph : +91 80 68199900 | www.rvu.edu.in

Mission

- Teaching and Learning:

"To provide a transformative learning experience that blends academic excellence with cutting-edge technology, equipping students with the skills, knowledge, entrepreneurial & ethical mindset required to lead and innovate in the global business landscape."

- Application Research:

"To foster a culture of research that bridges theory and practice, encouraging students and faculty to collaborate on impactful research that drive innovation and address real-world business challenges."

- Industry Orientation:

"To strengthen industry partnerships, offering students hands-on exposure to global business practices, preparing them to navigate complex markets and make meaningful contributions to the economy."

- Innovative Pedagogy:

"To continually evolve our teaching methodologies, integrating technology and experiential learning to cultivate adaptable, creative problem-solvers who are prepared to lead in a rapidly changing business world.

SCHOOL OF COMPUTER SCIENCE AND ENGINEERING

Vision

- To be a pioneering school of Computer Science and Engineering committed to fostering liberal education and empowering the next generation of technologists to make a positive global socio-economic impact.

Mission

- To be a pioneer in computer science education, fostering multidisciplinary research, innovation and entrepreneurship.

- To provide state-of-the-art facilities and dynamic curriculum that enables exemplary pedagogy, integrating advanced technology, theoretical foundations, and hands-on applications to address real-world challenges.

- To promote diverse communities of faculty and students through national and international academic, industry collaborations contributing to institution-building.

- To cultivate a generation of ethical, self-motivated, and empathetic problem solvers dedicated to achieving sustainable development goals.

SCHOOL OF LAW

Vision:

- To be a globally recognized, technology-driven centre for legal education and research, fostering innovative, ethical, and socially responsible legal professionals.

Mission:

- Strive for academic and research excellence by integrating global best practices, interdisciplinary learning, and innovative pedagogy to shape thought leaders in law.
- Utilize technology to make legal education more accessible, interactive, and responsive.
- Nurture professionals competent to engage with global challenges to law & policy.
- Bridge the gap between legal theory and practice through experiential learning, clinical legal education, and policy research.

SCHOOL OF FILM, MEDIA & CREATIVE ARTS

Vision

- To foster ahead-of-the-curve learning in the spheres of film, media, animation and the creative arts, paving the way for sensitive and skilled future thinkers, entrepreneurs, and content creators.

Mission

- To offer the best opportunities for a vibrant Film, Media and AVGC (Animation, Visual Effects, Gaming and Comics) education that prepares students for rewarding

careers in the shapeshifting spheres of entertainment, media and animation industries.

- Construct pedagogies and create research-driven content that enhance and deepen learner engagement through focused curricula that enable technical skilling through state-of-the-art technologies.
- Draw upon local, national and internationally established perspectives and contemporary resources to nurture inclusive learning, effective storytelling and empathy building.
- Anchored in experiential learning, to adapt emerging best practices and forge robust partnerships in the fields of Film, Media, AVGC and Creative Arts education.

SCHOOL OF CONTINUING EDUCATION AND PROFESSIONAL STUDIES

Vision

- To be a globally recognized, technology-enabled center of excellence in lifelong learning, that empowers individuals to reshape their lives and careers.

Mission

- Lifelong Learning: Provide flexible, accessible, and high-quality educational programs that support continuous learning and career advancement for professionals across domains and adult learners.
- Industry-Relevant Curriculum: Develop and deliver skill-based, interdisciplinary courses aligned with global industry trends, leveraging technology and innovative teaching methods.
- Empowerment & Growth: Equip learners with critical thinking, leadership, and problem-solving skills to thrive in evolving professional landscapes and contribute meaningfully to society.
- Global & Inclusive Approach: Foster a diverse learning community through research driven consulting with industry leaders, academia, and global institutions, ensuring learners gain a competitive edge in a connected world.
